LITURGICAL DESIGN - PLANNING - CONSULTATION

3 DECEMBER 2000

LETTER OF RECOMMENDATION

DELESLINE CONSTRUCTION,,INC  
320 - 7th STREET WEST  
PALMETTO, FLORIDA 34221

TO WHOM IT MAY CONCERN,

WE ARE NEARING COMPLETION OF OUR FIRST PROJECT WITH DELESLINE CONSTRUCTION, THE TOTAL RENOVATION OF A BRADENTON CHURCH WITH RELATED SITEWORK.

DELESLINE WAS THE LOW BIDDER OUT OF FOUR FIRMS AND FURTHER AIDED THE CHURCH IN SUGGESTED COST SAVINGS DURING BID NEGOTIATIONS AND ALSO DURING THE CONSTRUCTION PROCESS.

DURING OUR RELATIONSHIP ON THIS PROJECT WE HAVE FOUND THE FIRM AND ITS STAFF VERY RESPONSIVE IN RETURNING CALLS, PROVIDING US WITH REQUESTED INFORMATION, SHOP DRAWINGS, ATTENDING SITE AND OFFICE MEETINGS AND MANNING THE PROJECT WITH EXPERIENCED AND QUALIFIED PERSONNEL.

WE HAVE BEEN VERY SATISFIED WITH THEIR WORK AND PERFORMANCE AND CURRENTLY HAVE THEM BIDDING ANOTHER CHURCH WE HAVE PLANNED IN EAST BRADENTON.

PLEASE CALL ME SHOULD YOU HAVE ANY FURTHER QUESTIONS CONCERNING THE FIRM.

SINCERELY,

RICHARD M. TAKACH  
PROJECT MANAGER

Re: DeLesline Construction, Inc

To Whom It May Concern:

In December of 1999, DeLesline Construction, Inc. completed an addition and renovation of the Hardee County Public Library. As the project architect, I assisted the Hardee County Board of County Commissioners in administration of their contract with DeLesline. I am pleased to say that the project went very smoothly and that DeLesline was very professional in all our dealings. I would welcome the opportunity to work with DeLesline Construction, Inc. on future projects and recommend that they be given consideration as a general contractor for any construction projects you might have.

Sincerely,  
CHASTAIN-SKILLMAN, INC.

Re: Letter of Reference

TO WHOM IT MAY CONCERN

For the past 21 years I have had the pleasure of a personal and business working relationship with John DeLesline. He is the President of DeLesline Construction Company, a Contracting firm in Palmetto, Florida.

He has gained my respect as a highly qualified Contractor. We have worked together on numerous projects, having finished the Kitchen and HVAC remodel of Jessie P. Miller Elementary School, and we now have a project that we are working on together, a new fire station for Parrish Fire District.

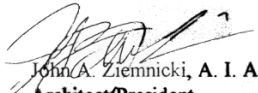

The professional manner in which he conducts his business is one of the reasons our relationship has lasted this long. His honesty and willingness to work closely with a client in every phase of a construction project in one of the reasons I feel John's quality of work has been proven over and over again.

John's dedication to each project from conception to completion has guaranteed me the highest quality finish on each of the projects he has completed for me. In addition to his initial follow through in the early stages of a project, he continues to keep all parties apprized of any problems that may arise after a project has been completed.

I would highly recommend DeLesline Construction to handle any project you may have involving Preliminary Plans, Renovations, Additions as well as all other areas relating to the Construction of Commercial and Residential Buildings.

If you should have any questions, please feel free to call upon us at any time.

Sincerely,

  
John A. Ziemnicki, A. I. A.

Re: DeLesline construction

DeLesline construction was chosen from bid to build our \$600,000.00 fire station that was completed for our open house on May 1<sup>st</sup> 1999. Not only did they complete the project on time but we feel because of some changes that needed to be made that were caught by the contractor and probably would have been missed by us. We not only came in at bid price but we feel we have a better building because of the contractor's hard work as far as checking workmanship as well as quality of material.

RE: DeLesline Construction Company

To whom it may concern:

DeLesline Construction completed additions and alterations at Lakeland Senior High School in Lakeland, Florida in March of 1997 for the Polk County School Board, Project No. 95316.

The project consisted of a new Dance/Orchestra Building (7,560 s.f.), remodeling an existing Administration Building including new addition (9,210 s.f.), and a complete remodeling of the Media Center with the addition of a new CCTV Studio and Sills Computer Lab (11,712 s.f.). The total contract amount with change orders was \$1,735,474.00. The work was completed within the time allotted with extensions that were granted due to circumstances beyond the Contractor's control. The construction was found to be acceptable, with minor punch list items.

This was my first experience with DeLesline Construction. I found DeLesline Construction to be a competent Contractor who quickly responded when work that needed to be corrected was brought to their attention.

If there is any additional information you need, please feel free to contact me. I also suggest you contact Dave Flemming, Director of Engineering and Construction Services with the Polk County School Board (941/534-0749).

Very truly yours,

TO WHOM IT MAY CONCERN

Re: DeLesline Construction, Inc.

This is to recommend DeLesline Construction, Inc., for general construction projects within the applications of the Class A General Contractor's License. We have been involved with Mr. John DeLesline for nearly 20 years and have observed his company's expertise and craftsmanship on many differing projects including commercial, institutional, and industrial construction. The work observed has been of a high quality to be expected from someone with his background and experience.

We have no reservations inviting DeLesline Construction, Inc. to participate on any future work we are associated with.

Sincerely,

John B. Benson, III, P.E., P.L.S.

RE: DeLesline Construction, Inc.  
320 7<sup>th</sup> Street West  
Palmetto, FL 34221

This letter of recommendation is written on behalf of Mr. John T. DeLesline and DeLesline Construction, Inc.

My experience working with DeLesline Construction, Inc. was in their capacity as project general contractor for Samoset Elementary School in Bradenton, Florida. This project was a \$1.2 million, 2-story classroom and administrative office addition to an existing campus.

DeLesline Construction's vast experience with building construction led to this project being constructed **on time and under budget**. Problems which are normally associated with constructing a building were worked out, with both sides treating the other fairly and working together as a team.

I would highly recommend DeLesline Construction, Inc. for **any** building project.

Respectfully submitted,

FAWLEY BRYANT ARCHITECTS, INC.
